

SUCCESS STORY

Esna Protects their G Suite Data Easily with Backupify

backupify

a datto company

WITH BACKUPIFY, BACKUPS FOR ALL OF OUR DATA ARE AUTOMATED, AND I HAVE THE RELIEF OF KNOWING THAT WE HAVE A SECURE, SECOND COPY OF OUR DATA."

Troy Matthews
Network Administrator

Esna Technologies allows businesses to communicate anytime from anywhere, enabling better communication across an organization. They believe that communicating with peers, partners, and customers across devices should be easy and the experience using their products exceptional.

Backupify Simplifies Esna's G Suite Administration

Troy Matthews manages all of Esna's IT systems. A typical day can range from providing desktop support to employees and managing servers to working with R&D on new products.

"Being a technology company ourselves, we always try to stay on the cutting edge of new technologies. Many of our processes are managed in the cloud; we use G Suite for our email, documents, and collaboration and Salesforce for our CRM. Backupify has greatly simplified my processes regarding G Suite administration especially. With Backupify, backups for all of our data are automated, and I have the relief of knowing that we have a secure, second copy of our data. As a busy IT person, it's one less thing that I need to worry about."

Backupify Protects Esna from Data Loss

"Backupify for G Suite protects us from data loss. Recently, our Vice President of Marketing needed to access a number of important files a former employee created, one of which was a spreadsheet with sales leads. Backupify made it fast and easy to restore the files from their Google Drive account. If we didn't have Backupify, those files and leads might have been lost."

BACKUPIFY MAKES TRANSFERRING DATA EASY

"Prior to purchasing Backupify, transferring a former employee's files to another employee was time consuming. Also, the files would need to be transferred when the user was deprovisioned from G Suite, which wasn't always possible. If it was realized after the fact that an employee's files were needed, there wasn't any recourse; it was gone forever. With Backupify, I don't need to worry because data for all of my former employees is archived. I know that everything is backed up and transferable at any point. I estimate that I save hours of time by using Backupify. I have peace of mind with Backupify because I don't need to worry about data loss."

About Backupify

Backupify, a Datto company, is the leader in cloud-to-cloud backup, enabling enterprises to extend data protection and accessibility best practices to the cloud. Backupify gives IT professionals the security and control they need against data loss from user errors, external threats, and service failures. Learn more at www.backupify.com.
