# TeamQuest Sleeps Better with Backupify for G Suite

backupify

a datto company

TeamQuest is the global leader in IT Service Optimization, delivering automated, comprehensive, and real-time performance analysis covering everything from apps to servers to storage.

**I SLEEP BETTER AT NIGHT KNOWING THAT MY DATA IS PROTECTED WITH BACKUPIFY™**

Randal Schmidt,  
IT Operations

**TEAMQUEST**  
A HelpSystems Company

### Backupify is Part of a Comprehensive Business Plan

As part of its business continuity plan, TeamQuest uses Backupify's backup and revision capability to protect its cloud data from accidental deletions or changes.

As Head of IT Operations, Randal Schmidt, puts it, "TeamQuest has a robust and comprehensive business continuity plan (BCP). In the past, we had to store tape backups offsite with multiple versions of our data. When we moved to G Suite, we were able to eliminate the need for onsite email data and take that load away from our files servers. However, we needed to be able to maintain the same level of data security and ability to restore data. Enter Backupify. Because of Backupify, our business continuity plan actually improved when we moved to G Suite."

### Backupify Allows TeamQuest to Set it and Forget it

Backupify allows TeamQuest to automatically back up their valuable G Suite data. The addition of a third party backup tool has eliminated the need for manual exports and time consuming restores.

"Getting started with Backupify is quick and straightforward. In a matter of days, we were able to back up our entire system. Backupify backs up new users automatically, which means that we can set it and let it go. Restoring lost data is easy with Backupify. With our former tape backup system, restoring a lost document could be complicated; you had to take a guess on the date of the correct file, and you might get one tape, realize it's not the right one, and then have to get another. With Backupify, I can see all versions of a file immediately. Employees are able to restore their own files from any point in time on their own, freeing up my time to work on other projects. I highly recommend Backupify because it just plain works and saves me time. I sleep better at night knowing that my data is protected with Backupify."

With [Backupify for G Suite](#) in place, backing up data is streamlined and restores are never an issue for TeamQuest.

### About Backupify

Backupify, a Datto company, is the leader in cloud-to-cloud backup, enabling enterprises to extend data protection and accessibility best practices to the cloud. Backupify gives IT professionals the security and control they need against data loss from user errors, external threats, and service failures.
